Unearthing Efficiency: Your Partner in Capital Equipment

Innovation & Technology

Durability & Reliability

Comprehensive Support

WHY CHOOSE US?

"At Minecraft Mining & Industrial Solutions, we understand the relentless demands of the mining industry. We are dedicated to providing cutting-edge, reliable capital equipment engineered for performance, durability, and safety in even the most challenging environments. Our commitment is to empower your operations with tools that deliver exceptional results and maximize productivity."

Precision & Depth: MetreEater Diamond Core Drill

Experience unparalleled deep drilling capabilities with The MetreEater Diamond Core Drill. Engineered as a screw-feed machine, it excels in low-pressure, high-altitude environments, ensuring consistent and reliable performance where it matters most. We also offer comprehensive spare parts support for this machine, ensuring longevity and minimal downtime for your operations.

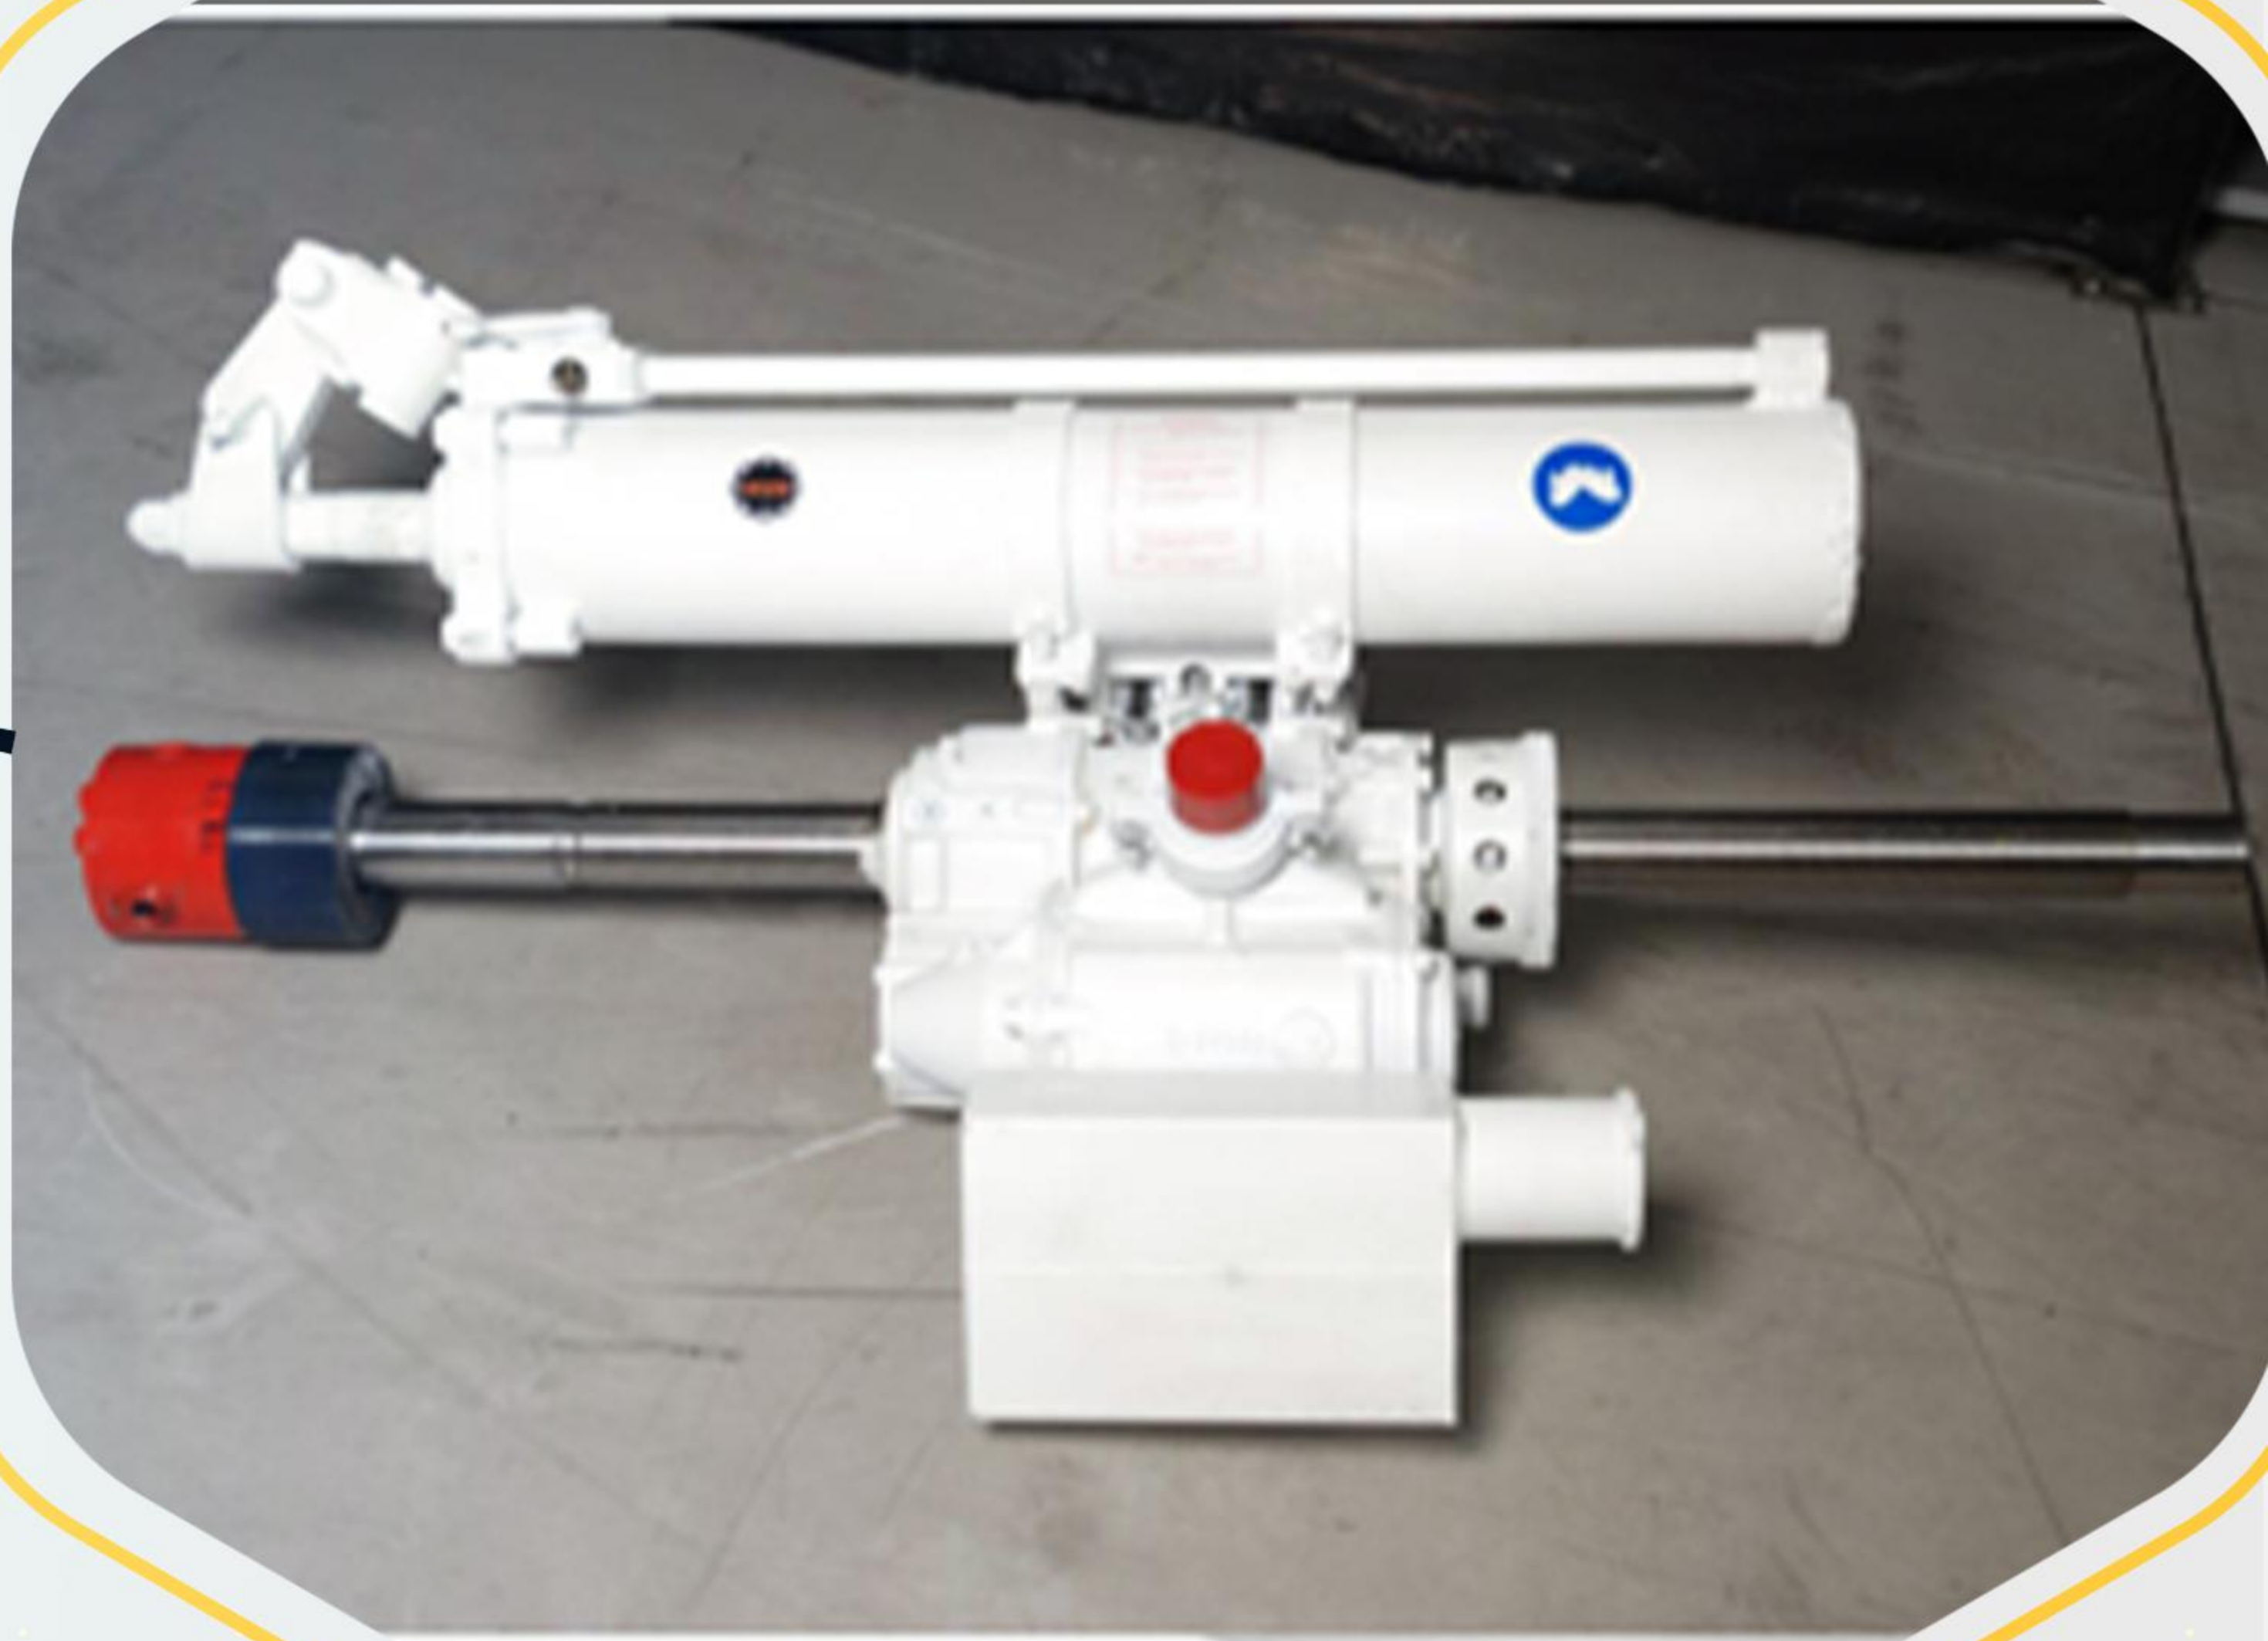

KEY FEATURES & BENEFITS

- **Deep Drilling Excellence:**
Screw-feed mechanism for superior penetration.
- **High-Altitude Performance:**
Designed for challenging low-pressure environments.
- **Dedicated Spares Support:**
We stock and supply essential spare parts to keep your MetreEater running optimally.

AVAILABLE MODELS

- AQ Pneumatic
- AQ Hydraulic
- BQ Pneumatic
- BQ Hydraulic

"Contact us today for a personalized consultation and to explore how The MetreEater can transform your drilling efficiency."

KEMPE DRILLS: Legacy of Performance, Future of Drilling

While sales of new U3-6B units have been discontinued, Minecraft Mining & Industrial Solutions proudly continues to support this industry workhorse. We understand the reliance on existing machinery, and therefore, we maintain a comprehensive stock of most spare parts to service your current U3-6B drills in the market.

U3-6B PNEUMATIC DRILL

While sales of new U3-6B units have been discontinued, Minecraft Mining & Industrial Solutions proudly continues to support this industry workhorse. We understand the reliance on existing machinery, and therefore, we maintain a comprehensive stock of most spare parts to service your current U3-6B drills in the market.

Parts Available to service existing drills.

U3-9B / U3-9BQ: THE NEXT GEN

As the direct replacement for the U3-6B, the U3-9B (Pneumatic) and U3-9BQ (Electro-hydraulic) bring enhanced performance and efficiency to your drilling operations. These drills are built upon the trusted KEMPE legacy, offering superior capabilities for modern mining demands. We also ensure full spare parts availability for these advanced units, guaranteeing long-term operational reliability.

Key Features & Benefits (for U3-9B/Q):

- *Direct Replacement for U3-6B*
- *Pneumatic and Electro-hydraulic Options*
- *Improved Performance & Efficiency*
- *Comprehensive Spare Parts Availability*

ROCK DRILLS: Unmatched Power and Versatility

S215 – THE INDUSTRY STANDARD JACKHAMMER

The S215 stands as an industry-standard jackhammer, perfectly engineered for blast hole drilling in narrow vein stoping operations within tabular ore bodies. Its lightweight design and high-performance output make it an ideal choice for both drilling and manipulation in low stopping height conditions. Minecraft Mining & Industrial Solutions supplies most spares for the S215, ensuring continuous operation."

Technical Specifications:

- Length Inc Drill Steel Retainer: 760/ 730mm
- Drill Steel Chuck Hex: 22mm or 25mm x 159
- Bore: 79mm / 68mm
- Stroke: 70mm / 55mm
- Air Connection: ¾" BSP
- Water Connection: ½" BSP .

S25 – THE MULTI-PURPOSE ROCK DRILL

The S25 is a revolutionary rock drill designed to meet the diverse needs of the mining industry, excelling in stoping, developing, and shaft sinking applications. Its exceptional versatility extends to rig-mounted use for dimensional stone and quarrying. Experience smooth operation, high penetration speed, and significantly low maintenance costs with the S25."

Technical Specifications:

- Length Inc Drill Steel Retainer: 760/ 730mm
- Drill Steel Chuck Hex: 22mm or 25mm x 159
- Bore: 79mm / 68mm
- Stroke: 70mm / 55mm

Airlegs & Core Splitters: Essential Equipment for Enhanced Ops

AIRLEGS - OPTIMIZE YOUR DRILLING WITH ROBUST AIRLEGS

Enhance stability and control during drilling with our range of high-quality Airlegs. Available in various sizes and configurations to suit your specific operational needs.

Available Sizes

- 0.6m Airleg
- 1.0m Airleg
- 1.3m Airleg

OPTIONS:

Ret retractable and Non-ret retractable

Equip your team with the best. Contact us to learn more about our Airlegs and Core Splitters.

CORE SPLITTERS - PRECISION CORE SPLITTING FOR ACCURATE ANALYSIS

Manual Core Splitter:

Our portable entry-level Manual Core Splitter offers safe and accurate cross-cuts with a 220V single-phase motor. The core is securely held in a guide, prioritizing operator safety. Also available with 3-phase or petrol motor options for enhanced versatility.

Auto-Saw:

For large sampling programs, our fully automatic Auto-Saw sets the benchmark. It offers exceptional productivity coupled with the highest levels of operator safety. We provide comprehensive parts, service, and repair support for this machine.

Key Features:

- Fully Automatic
- Highest Operator Safety
- Parts/Service/Repairs Available.
